

Si-82 PACK 2 + pH Safe

CENTRIFUGAL PUMP

Durable pump

The Si-82 pump is designed to be easily installed whatever the layout of the premises. Strong, the Si-82 tolerates charged, high temperature and acidic condensates (pH>2.5) produced by gas condensing boilers. The pH Safe cartridge can neutralise up to 800 litres of acidic condensates. Capable of evacuating up to 500 l/h, the Si-82 pump is suitable for air conditioning units and industrial refrigeration displays.

BENEFITS

● High performance

- Can discharge condensates **up to 5m**
- **Up to 500 l/h**, for shorter running time
- **Low sound level** – quiet operation
- Preserve the plumbing system and the environment

● Installation in any place

Pump can be floor mounted, attached on a wall or hanging from a ceiling.

● Versatile

Easily removable tank and reversible pump, to allow mounting rather on the left or on the right of the application and choosing the side of the water exit.

● Easy electrical connection

Plug-in power cord to facilitate installation and maintenance.

● Easy hydraulic connection

- Quarter turn easily removable check valve, designed to facilitate Ø int. 10 mm (3/8") hose plug in.
- 4 inlet holes Ø 30 mm (1" 3/16)

● High resistance

- **Oil and acid resistant** float
- Mechanical structure **resistant to shocks**
